

FRM-770 series

Continuous Bag Sealing Machine

Table Top Type (FRM-770 I) :

Vertical Type(FRM-770II):

Vertical type means bag stands vertically and sealing.

4F,NO.512,YUTANG ROAD,SHANGHAI 201613,China

TEL:+86-21-34662727

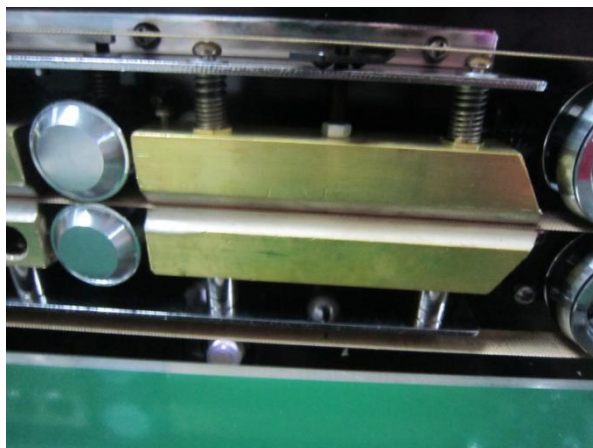

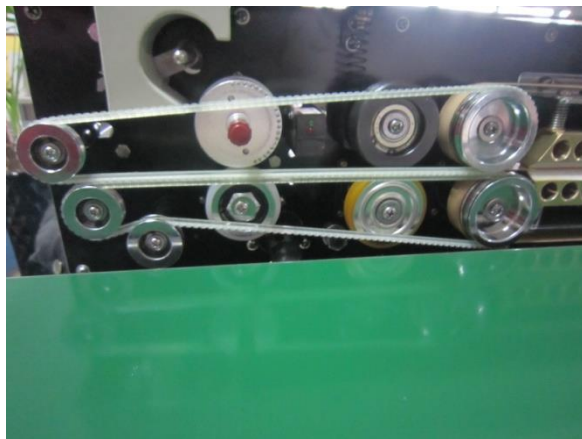

FAX:+86-21-34630350

E-mail:sales@tops-group.com

3. Floor Type (FRM-770III)

Parts' Details Pictures:

4F,NO.512,YUTANG ROAD,SHANGHAI 201613,China

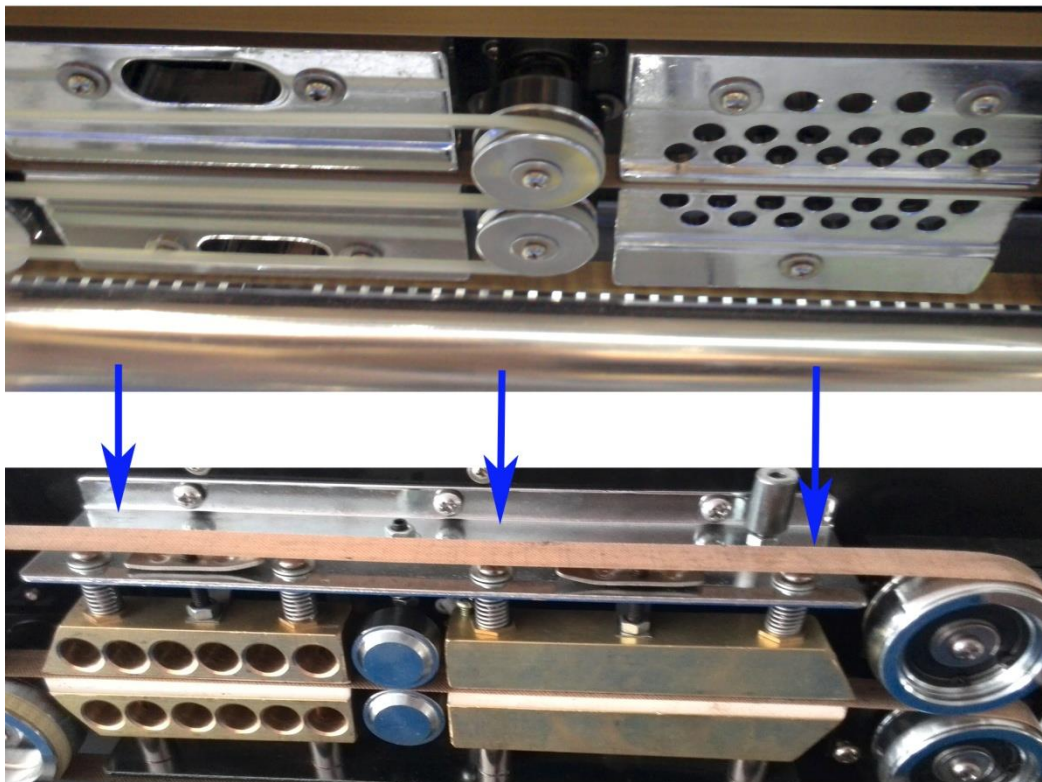

TEL:+86-21-34662727

FAX:+86-21-34630350

E-mail:sales@tops-group.com

Upgrade Improvements 1:
Heating Block is made of **Pure Copper**
Even Heating, Quick Cooling , Durable Life and Rustlessness.

4F,NO.512,YUTANG ROAD,SHANGHAI 201613,China

TEL:+86-21-34662727

FAX:+86-21-34630350

E-mail:sales@tops-group.com

Upgarde Improvements 2

Pointer Temperature Controller is Changed to Digital Temperature Controller
Makes temperature Control More Precise, Quality sealing

Sealing Bag Samples:

4F,NO.512,YUTANG ROAD,SHANGHAI 201613,China

TEL:+86-21-34662727

FAX:+86-21-34630350

E-mail:sales@tops-group.com

Descriptive abstract
Main features

- Constant temperature controllable, the temperature is adjustable
- Speed stepless adjustable

Scope of application

FRB-770 series plastic film continuous sealing machine is applicable to small bag seal.

Technical parameter

	FRM-770I	FRM-770II	FRM-770III
Power supply voltage	AC 220/50 110/60		
Motor power(W)	50		
Electric power(W)	300X2		
Sealing linear speed(m/min)	0-12(0-16)		
Sealing width(mm)	12		
Temperature control range(degree)	0-300		
Lettering category	steel wheel indentation printing (can choose)		
Seal center to transport station distance(mm)	10-40	150-270	10-40
Delivery table size	840X153		
Delivery platform single maximum weight capacity(kg)	<=1		
Delivery platform weight capacity(kg)	<=3		
Overall Dimensions(LxWxH)(mm)	840x380x320	840x380x550	840x550x800
Net weight(kg)	32	47	40
Price (FOB Shanghai)			

4F,NO.512,YUTANG ROAD,SHANGHAI 201613,China
